

## VACANCY - AGRONOMIST

Farming and Engineering Services Limited (FES) is the leading supplier of agricultural services and precision agriculture technologies in Malawi and Zambia. FES established a state-of-the-art agricultural laboratory – AgriLab - to complement its activities and is looking for qualified agronomist based in Lusaka, Zambia.

Reporting to the Agronomy Manager, the agronomist will, among other duties, perform the following key tasks:

- Visit and advise customers on agronomy-related matters including soil health, crop husbandry and fertilisation.
- Source new business for the Agronomy Department.
- Collect soil, leaf and water samples for customers in Zambia.

Interested applicants should meet the following minimum criteria:

- Possess a B.Sc. Agriculture degree or similar qualification.
- At least five years' work experience in a busy farming environment and in sustainable farming methodology.
- Knowledge of soil fertility management.
- Detailed knowledge of the Zambian agricultural sector.
- Self-starter able to work under pressure with minimum supervision.

Interested candidates who meet the above requirements should send their application letters together with detailed and updated curriculum vitae and copies of relevant certificates with three traceable referees to the Group Agronomist, PO Box 918, Blantyre, Malawi; or email [ldesideri@agrilabmw.com](mailto:ldesideri@agrilabmw.com), to reach us not later than 15 August 2020.

Please note that ONLY applicants with the appropriate qualifications will be considered and only shortlisted applicants will be acknowledged.
